

WELDING EQUIPMENT WIRE FEEDERS

SECTION ONE

TRANSMIG 4RHD

Heavy Industrial

No4

SPECIFICATIONS	WIRE SPEED:	WIRE SPOOL SIZE:	INTERCONNECTION CABLE LENGTH:
CONTROL SUPPLY VOLTAGE:	1.25-22 m/min	200mm or 300mm or 400mm coil	N/A
115 volt	(50-875 ipm)	WIRE FEEDER WEIGHT:	INTERCONNECTION PLUG:
1 phase 50/60Hz	WIRE DIAMETER:	30kg	N/A
CONTROL SUPPLY POWER:	(Hard) 0.6 – 1.6mm	DIMENSIONS:	
460 volt amp	(Soft) 0.8 – 1.6mm	H310mm x W335mm x D513mm	
	(Cored) 0.8 – 3.2mm		

The Transmig 4RHD is a heavy duty, compact, 4-roll wire feeder designed for semi-automatic welding. Key features are outstanding speed control through built-in compensation for changes in line voltage and/or load on the feed rolls. Other user friendly features include quick change feed rolls without tools, a rotatable feed head to limit the bends in the gun cable and a welding gun quick disconnect. The feed system is compact yet provides heavy duty power for large diameter solid and flux cored wires. Ground fault protection, electronic motor protection and an input circuit breaker are all designed to keep the unit running in tough conditions.

Features:

- ▲ Heavy Duty 4 Roll Feeder Assembly
- ▲ Gas Solenoid Operation
- ▲ Digital Meters for Wire Speed, Voltage (Preset and Actual) and Arc Current
- ▲ Feed Force Monitor Display
- ▲ Inch Switch, Purge Switch, Trigger Latch Switch & Spot Timer Control
- ▲ Adjustable Timing for Pre-Flow, Post Flow and Burnback
- ▲ Tweco® No 4 Torch Connection
- ▲ Adjustable Run In & Ramp Up Speeds to Match a Power Source Start Characteristics
- ▲ Ground Fault Protection, Electronic Motor Protection and an Input Circuit Breaker
- ▲ Embedded Micro Processor
- ▲ Compact, Lightweight, excellent Performance

Hard Wire:	0.6mm	V Groove	Part No. 375980-071
	0.8 / 0.9mm	V Groove	Part No. 375980-050
	0.9 / 1.2mm	V Groove	Part No. 375980-070
	1.3/1.6mm	V Groove	Part No. 375980-052
Soft Wire:	0.9mm	U Groove	Part No. 375980-072
	1.2mm	U Groove	Part No. 375980-073
	1.6mm	U Groove	Part No. 375980-074
Flux Cored	0.8 / 0.9mm	V Groove	Part No. 375980-050
	1.2mm	V Knurl	Part No. 375980-083
	1.3 / 1.6mm	V Knurl	Part No. 375980-057
	2.0mm	V Knurl	Part No. 375980-058
	2.4mm	V Knurl	Part No. 375980-059
	2.8mm	V Knurl	Part No. 375980-060
	3.2mm	V Knurl	Part No. 375980-061

Ordering Information:

Transmig 4RHD Part No. 706954

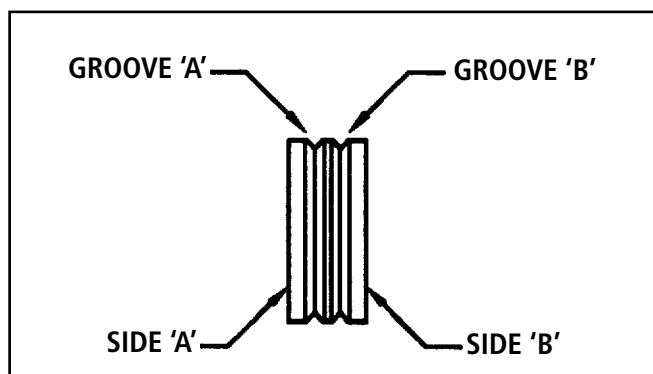

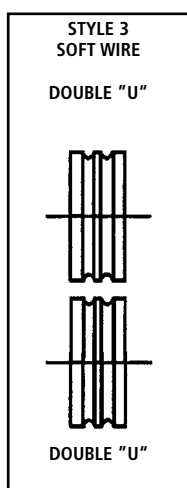

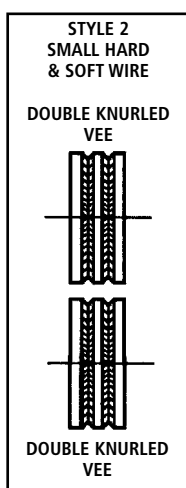

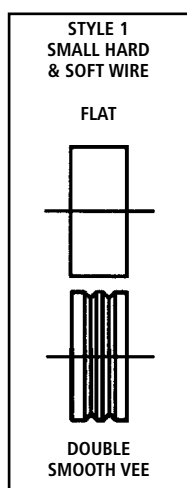

Optional Accessories:

Tweco® No. 4 Torch Adaptor	Part No. 870394
Tweco® No. 5 Torch Adaptor	Part No. 870395
1.2 Metre Interconnection Cable	Part No. 706955
10 Metre Interconnection Cable	Part No. 706956
15 Metre Interconnection Cable	Part No. 706957
15kg Spool Cover	Part No. 375582A-004
30kg Coil Adaptor	Part No. 407142A

Technical TIP

FEED ROLL STYLES

Feed Rolls:

STYLE 1: V grooves are used for solid hard wires such as mild steel or stainless steel

STYLE 2: V knurled grooves are used for flux cored wires

STYLE 3: U grooves are used for solid soft wires such as aluminium

NOTE: Number stamped on Side "A" indicates the wire size of Groove "B" and vice versa
