

Genuine COMET™ 3 KITS

CIGWELD Genuine COMET™ gas welding, cutting and heating kits combine all the quality components required to perform tasks ranging from brazing through to cutting steel. CIGWELD first began manufacturing Gas Equipment in 1922 and has been at the leading edge in design, safety and production since then. The Genuine COMET™ 3 torch and Genuine COMET™ regulator range is at the heart of this experience and continues to be the market leader in its field due to an unwavering commitment to manufacturing products of unrivalled quality.

As operators have different equipment use requirements, CIGWELD packages kits that are tailored to individual needs. Listed below is a cross-reference matrix that tables all the components that go into each of the different kits. For more detail on these and other kits please refer to the pages following.
