FP130 MIG/FLUX CORED WELDING SYSTEM

The FP130 dual-purpose MIG Welder operates on standard 115 volt household current, but has the power to handle heavier duty applications such as general fabrication and repair shop work.

Under 60 lbs, this heavy-duty unit is still portable, but packs a punch. It's 40% duty cycle ensures that even thicker metals can be welded with no problem.

Comes Complete With

- Argon regulator
- 10 ft. Helvi® style MIG gun
- 6 ft. ground cable and work clamp
- 6 ft. power cord with plug
- Welding nozzle and tip
- Spool of .030 MIG welding wire
- Instruction manual (English, French, Spanish)

Features

- Uses standard 115 volt household current
- Increased welding capacity
- Welds with or without shielding gas
- Welds with solid or flux core wire
- Wire sizes, .023", .030", .035"
- 2 lb. and 10 lb. wire spool capacity
- Four position welding power control
- Illuminated on/off power switch
- Illuminated thermal overload indicator
- Thermostatic heat protection
- Infinite wire speed control
- Heavy duty wire drive system

The Firepower MIG welding cart makes it easy to move your portable MIG welding system to the job.

Features:

- Built in cylinder rack for safety
- Storage tray for welding accessories
- Works with FP90, FP120, FP130, FP160
